Master, you knew I never pray
Master, nothing can keep you away

Nightmare be thy name
Nightmare be thy name

The dreams, they always do come true
Second sight and I don't want to know

Nightmare be thy name
Nightmare be thy name

You got to stop this game, before I go
Insane, you drive me insane
You would follow me straight to the grave
And beyond, ohh, yes you would

In hell, I see the fate of others
Break the spell, this night has been on forever

Nightmare be thy name
Nightmare be thy name

You got to stop this game, before I go
Insane, before I go insane
