Woke up this morning and I
Rolled out of bed thinking I
Would feel the same way
That I've been feeling for so long

Confused from missing someone
They let go but still I held on
To what was and will never be again
I had to learn to love again

Then I met someone that me forget about her
Had to wake up then walk out the door
Quit dreamin' bout her

Goodbye..
Farewell..
So long..
Gotta leave you in the past
Goodbye..
Farewell..
So long..
And I ain't ever lookin' back

So over it
I'm so over it
I'm over it
I'm so over it
I'm so over it
I'm over it
Don't want you no more
So over it
I'm so over it
I'm over it
I'm so over it
I'm so over it
I'm so over it
I'm over it
Don't want you no more

Forget the note that I wrote I didn't mean it
The ring that I bought, mmm girl you can keep it

I don't want it back
It's just another memory I don't wanna see
I don't like it
Everything you told me before was just a lie
Everytime I saw you with him I wondered WHY?

My love wasn't enough for you baby, baby
Then I met someone that me forget about her
Had to wake up then walk out that door
Quit dreamin' bout her

Goodbye..
Farewell..
So long..
Gotta leave you in the past
Goodbye..
Farewell..
So long..
And I ain't ever lookin' back

So over it
I'm so over it
I'm over it
I'm so over it
I'm so over it
I'm so over it
I'm over it
Don't want you no more
So over it
I'm so over it
I'm over it
I'm so over it
I'm so over it
I'm so over it
I'm over it
Don't want you no more

I'm so over it
I,ve had enough
Can't go on like this anymore cuz I know
That you ain't gonna change
Nooo...

I know that love don't feel like that
When you give to someone you should feel it back
Can't forget all the hell that you put me through
It was hard but I've grown now I'm tellin' you
Oooo..

Over it
Yeah, yeah

I'm so over it
Yeahhhh..
I'm so over it
Yeahhhh..
It's over and I don't want you no more
Yeahhh..
I'm over it
And I don't
And I don't
Want you anymore

Goodbye..
Farewell..
So long..
I don't want you no more
Goodbye..
Farewell..
So long..
I don't want you no more
