Welcome to my Saturday night movie  
Can I have your attention? I can make an exception if  
you  
Want to watch it here with me

Welcome to my life built up on a screen  
I'll hit rewind so you can see my life in repeat  
This isn't acted please don't get distracted  
By the girls in line flirting at me

Don't you waste you're time in line  
Take a seat next to me  
And I'll but your face in the lights

Don't you think that you could be in my movie  
Cause there's a perfect possibility  
There's a perfect possibility  
Don't you think that  
You could be a star in the lights

Well come on let's go prove it  
I'll show you how to do it  
I'll take you back home and we can make a movie  
tonight

This is my Saturday night movie  
We'll make it a point to make out in every scene you  
and me  
No armrest in-between

And I'll call action  
Won't you lose the distraction  
Of the other girls screaming at me  
While whispering to me

Don't you waste you're time with her  
She's miles away and I'm one seat over her

Don't you think that you could be in my movie  
Cause there's a perfect possibility  
There's a perfect possibility  
Don't you think that

You could be a star in the lights

Well come on let's go prove it  
I'll show you how to do it  
I'll take you back home and we can make a movie  
tonight

And I'll call action every time  
And I'll call action ever night

Don't you think that you could be in my movie  
Cause there's a perfect possibility  
There's a perfect possibility  
Don't you think that  
You could be a star in the lights

Well come on let's go prove it  
I'll show you how to do it  
I'll take you back home and we can make a movie  
tonight
