Talk to me
We can't move forward because honestly
The story always ends and I'm left out
I try but I can't hear a sound

And when I'm with you
There's never any kind of follow through
I'll wait around for you impatiently
But I gotta know you want me too

And I'll be waiting till the end everything
Whisper to me
Just what you need

Summer rain
And memories bring back a cloud of pain
With both our destinies left intertwined
And all the days that made you mine

And as the leaves they change
I feel the distance and it feels so strange
The voice that always used to bring me home
Needs to know that she's not alone

And I'll be waiting till the end everything
Whisper to me
Just what you need

And I'll be waiting till the end everything
Whisper to me
Just what you need

So shout it out loud
The words behind your lips that
Do anything to hear you
Scream at me now
You know I'm lost without you
Do what you have to do,

And I'll be waiting till the end everything
Whisper to me
Just what you need

And don't you turn away
And don't pretend there's nothing you can say
And all I'm asking if for you to whisper to me just what
you need
