Lately when I looked at you
I have noticed that you are feeling blue
Honey you are a lot like me Trouble is piling up these
days
It will hurt you in so many ways
Leave you crying helplessly
The streets are so cold
Honey I know Baby come on Baby let us fly
To the moon Alice up in the sky
Mercury free Finally You and me
Really wanna hold you baby
Just the way I told you
To protect you from the hurt within
No one is gonna find us
We will leave the world behind us
Honey let us go ahead and jump in
Life is in our hands Let us take a chance
Baby come on, baby let us fly To the moon, Alice up in
the
Sky
Mercury free Finally You and me
Nothing to loose, nothing to hide
Nothing but that love we carry inside
Lately when I looked at you
I have noticed that you are feeling blue
Honey you are a lot like me Trouble is piling up these
days
It will hurt you in so many ways
Leave you crying hopelessly
The streets are so cold Honey I know
