L. Thomas

I watch you with guarded eyes
You touch my arm as you walk by
And I know I ain't gonna make it
I try to run and lock my door
It scares me cause this is so much more
Than I have known...but I think I can take it
Cause baby

Chorus:

All I could ever want
All I could ever need
Nobody loves you baby
Like the way I do
Show me that you can see
How good we could be
Nobody loves you baby
Like the way I do
Desire whispers in my ear
The wanting so bad when you're near
And I know I've lost control
And when you speak I watch your lips
And if you tried I could never resist
Ah, letting go
Cause baby
Repeat chorus
