My Jesus, I need you now
May your grace look my way
To hear you sing over me
Make your desires and mine the same

[CHORUS:]

Bless me indeed
Open wide my horizons to share your name
Bless me indeed
Let your hand keep me
from harm and pain
Bless me
Bless me

Lord I cling to your heart
Your love is what I need
All great things come from
May your greatness fall on me

[CHORUS]

[BRIDGE:]

The Lord bless and keep you
May his face shine upon you
And be gracious and
give you peace

[CHORUS]

Bless me
