

Mercy Me "I Worship You"

Visit "[I Worship You](#)" on MotoLyrics.com

I've been walking with a big grin
Singing with my eyes closed
Lifting up my hands
I've been lost in the moment
Sending up praises
Now I think I understand
When I open up and let it flow
I feel your touch and then I know
[chorus]
I can never live without it
And I'm never gonna doubt it
Everyday is new, yeah
There's nothing any better
I'll be singing it forever
I worship you

I'm standing on the edge now
Looking for a new place
Going deeper still
The feeling is electric
The power and the glory
Just move me where you will
Cause you take a song and make
it fly
Into my soul and that is why

[chorus]

I just want to dive into your
grace
I want to feel your presence, seek your face
I just want to be where you are

I can never live without it
And I'm never gonna doubt it
Everyday is new, yeah
(repeat)

[chorus]
