What if I took my time to love you  
What if I put no-one above you  
What if I did the things that really mattered  
What if I ran through hopes of disaster

No-one would care if we had never made it  
We're in this alone so why don't we face it  
There is no room to blame one another  
We just need time to forgive each other

Chorus  
What about love...  
What about feeling...  
What about all the things that make life worth living  
What about faith  
What about trust  
And tell me baby what about us

How can I give this love a new beginning  
How can I stop the rain it's neva ending  
How do I keep my soul believing  
Memories of how we should b keep calling

Chorus  
What about love...  
What about feeling...  
What about all the things that make life worth living  
What about faith  
What about trust  
And tell me baby what about us

Oh baby  
I'll take the rivers right  
I'll take the happy times  
I'll take the moments of disaster

Chorus  
What about love...  
What about feeling...  
What about all the things that make life worth living  
What about faith...  
What about trust...

And tell me baby what about us  
Tel me baby what about us...
