Only the serpent can bite  
The hated beast with six arms  
But you must know that one day  
You' ll feel his bite on your throat

Only the madman would place  
The serpents nest in his house  
Poison is mortal for all  
It doesn't know any friends

The nature is hard to cheat  
Unbridled, wild and merciless  
Stroking the serpent you risk  
Being his next victim:

The fullmoon and crescent moon  
Will never shine the same night  
This is eternal state  
And it will never change
