Drink your life from the jealous words they say
Victims of tomorrow, lessons of pain
Bring fourth thy maker, commander of slaves
Altered in their mind set, puppets for prey

You followed the lie

Awaken the past demons, the fifth Reich will rise
Judgements of the chaos, a slaughter of time
Genocidal monarch, lord of the lies
Betrayal of the conquest, murder your kind

You followed the lie

Blind lead the blind
The Thorazine shall save you
Slaughter your kind
Bringer of all their torment

The blind lead the blind

Dominion of the future, legacy of pain
Destruction of their god, living in vein
Witness of a new age, the gods are insane
Prophecy for humanity, Facing judgement day
