Rising children of holocaust  
Fighting masters that are lost  
Waking victims of disease  
Spawning new mutant breed

The children will now fight  
The powers of the light  
The victims soon to see  
The children are now free

Slaves of toxic cross  
Bring down masses of the cause  
Vengeance of souls that are greaved  
Justice destroy the deity

Children of redemption  
Man kind's own extinction  
Victims of deception  
Nature's evolution

Slaughtered now victims of all time  
Justice for a legacy of crime  
Prophets lance bringer of their pain  
Man kind's death hidden in their veins

The children are deceived  
The prophets are intrigued  
Betrayal of their pleas  
The children are diseased
