Come alive in the darkness  
Visions of tomorrow  
Answers for the questions  
Who leads us to the sorrow

I, frozen in time, master of pain  
I, corrupted and old, Future foretold  
I, angel of death, spirit possessed

Seed the black sky

Come with me my victim  
Life has no more vision  
I am your new maker  
Rise to your creator

I am your life

Master of possession  
Legions of my minions  
Under my protection  
Existence for collection

Come alive in the darkness  
Visions of tomorrow  
Answers for the questions  
Who leads us to the sorrow

I, frozen in time, master of pain  
I, corrupted and old, Future foretold  
I, angel of death, spirit possessed
