Break down the system
Betray your Wisdom
Your loss of vision
Has caused this cruel infliction
Bite the saw with tissue for Genetic means
Scientific mission that the world does not need
Slaughter is the testing; Genetic Holocaust
Basic cells infecting; our future is now lost
They're playing god
Generate diseased tissue
Unlock the Code
Obliterate all we dreamed of
Genocidal Spawn
Seeds of Time are mutated
Our future gone
To carry out the dreams of one
Geneticide
Our world will die
Mutated Time
From scientific lies
Bit the saw with tissue for Genetic means
Scientific mission that the world does not need
Slaughter is the testing; Genetic Holocaust
Basic cells infecting; our future is now lost
Genetic Vision
