Butchered, living pain and horror  
In hail deadly toxins, mutate our skin  
Savior of the death sentence  
Relieving the pain

Thorazine

Injected deep within  
Altered our thinking

Slaughter, genocidal masters  
Kill the unbelievers, erasing their existence  
Damming them enslaved  
Children of the new world order  
Lead the mutant race

Thorazine

Injected deep within  
Altered our thinking

Butchered living pain and horror  
In hail deathly toxins, mutate our skin  
Savior of the death sentence  
Relieving the pain

Thorazine

Injected deep within  
Altered our thinking  
Harness all our sins  
With toxic deathly grin
