Throne Of Infernal Fire

Pulling bodies into ashes  
Shadows cast from faceless being  
Raise the wings of death  
As he holds the gleaming knife  
Screams throughout his empire

He possess the throne of night  
Time to burn  
He possess the throne of death  
Burning crosses  
He possess the throne of infernal fire  
Christian souls in flames

Ashes to ashes, exterminate  
Destruction of the profane cities  
Enslave the messiah of hypocrisy  
Praise the throne of infernal fire

Let God weep and show his agony  
As tyranny rules across our land  
Let God cry and show his weakness  
As blasphemy reigns across our land
