Unleashing The Demons

Unleash the demons

In a war against light
Divine, Hell arises
From depths beyond the sky
Bow down before me
And behold the strength I unleash

Unleashing the demon
Speechless, cast away
Behold the powers I unleash
We will feel the burning winds
Forced to hail, forgive me not

Unleashing the demons

Spawned by disgrace for the holy book
Unleashing my void to destroy Jehova
Fallen angels take my hand

Unleash the demons
