Warlust

The sirens scream in vain  
Dismissal of saviour  
Welcome terror and torture  
Murder, killing - warlust

Mutilated creatures, depraved minds  
Now it's time to pay the price  
For all your sodomizing sins  
Kneel before us - and die

The battle roars with ungodly fury  
Trinity of the almighty force  
Welcome terror and torture  
Murder, killing - warlust

Bodies drained, a state of purity  
Collapse and scream in pain  
Now it's time to pay the price  
Let the drug inject you  
Feast upon the fallen

Murder - Killing - Warlust - prevail
