In a desperate group of Jews  
Slaves & miserable

The idea of an anointed Saviour is born  
To free them from their misery

A religion in oppression  
Full of myths & illusions

His vow of poverty becomes a myth  
From dominated to dominators

The theft of rites & commandments  
From other religions begins  
They promise the end of suffering  
While their churches are full of it

The god new, the end of suffering  
The bad one, all dies because of this

With a church representing pain  
With horrible torture pictures

The main symbol of their church  
It is a man dying in a stick
