Master... you know I never pray
Master... nothing can keep you away

Chorus:
Nightmare be thy name, nightmare be thy name

The dreams... they always do come true
Second sight, and I don't want to know

Chorus

You got to stop this game... before I go
In-sane... you drive me insane
You would follow me straight to the grave
And beyond... oh yes you would

Solo: s/d

In hell, I see the fate of others
Break the spell, this night has been on forever

Chorus

You got to stop this game... before I go
In-sane... before I go insane
