"The Grave"

There is a cemetery just East of here
That's where they say the Devil, the Devil is always near
Come to the Grave
The Grave that comes alive, The Grave that feeds the
night
Bring your Book of Spells
Ancient rites, magic signs, bring your sacrifice
It's time to draw the circle around The Grave
Now don't you break the circle, tonight is not a game
Come to The Grave
Rise evil demon, up into the night
Is that you... Baphomet, the inverted star
We visit here at midnight, we stay until the daylight
Is that you... Baphomet, the inverted star
We visit here at midnight, we stay until the daylight
There is a cemetery just East of here
That's where they say the Devil, the Devil is always near
Come to the Grave
The Grave that comes alive, The Grave that feeds the
night
Bring your Book of Spells
Ancient rites, magic signs, bring your sacrifice
