Love lies in the brightness of your eyes  
Just like the sun  
Shines everyday  
And if the rain comes to wet and challenge  
This heart of your will still be there

The moon lights the night  
Just like you do  
With my life  
Across the dark  
And the coolest eyes  
I'll need you here

Your voice  
A blessing  
Joins  
The special words  
You say to me  
And if a storm  
Comes with winds and thunder  
The gods above will understand

And

Let us remain  
You are my guide  
And steps  
Across the dark  
And the coldest eyes  
I'll need you here
