[Originally by Redemption 87]

We've been dealt a plague of the worst kind,
Because this one's embedded in our minds.
Reality and our sanity lost,
With nothing left but time.
Is this the end or the beginning of the end?
Are we so shallow that we've lost the ability to
understand?
Violence, a sign of ignorant times.
What a waste of time.
A true sign of ignorant minds.
I know there is a better way.
I never grew up with hate stained eyes.
Violence never solved things in my life.
It only started more fights.
We need to erase the shit and use our minds.
A symbol of our society?
Where is the logic in this stupidity?
Pure anger, no thought, no sympathy.
We need to erase the violence!
