The world's asleep, don't despair
Got all I need, my love is strong and clear
Let's break away, you and I
All it takes is just one little spark, feel it, from me
We'll make a chain of light in the dark, baby, let our
hearts be free
Forget the future, leave the past behind

Let's do the dance of life
You know everywhere the world is turning
We've got 50,000 candles burning, 50,000 candles
burning
It's my party, it's my party tonight
50,000 candles burning

No time for tears, dry your eyes
The world could vanish in a flash of light
Let's celebrate the love we have today
Oh, precious time just fades away

All it takes is just one little spark, feel it, from me

We'll make a chain of light in the dark, baby, let our
hearts be free
We've got 50,000 candles burning, 50,000 candles
burning
You know everywhere the world is turning
Let's do the dance of life
50,000 candles burning
We've got 50,000 candles burning
It's my party, it's my party tonight (repeat)
