Open your mind, don't let it slip and
Take you on a midnight ride that's wicked
Everyone around here comes in feeling
Fed up with the way that wounds are healing

Take me to a place where doors are open
A lovely little place where no one's broken
Welcome to the world, no one's listening
Just wanna break out and escape this prison

Bring me to life, breathe air into me
It's taken me my whole life to realize
All the things I've never seen
Bring me to life, breathe air into me
Take me from the darkness that I've been in
Cause I just wanna be free
Bring Me To Life

Come on start your engines, flip that switch
And take it to the limit if you rock like this
And if you feel alive then pump your fist
Cause there's no turning back when the energy hits

Down comes the rain like a hurricane
Hard to breathe like a storm hangin over me
Coming to get me, but I don't have to let it in
I stand up face my fears like an enemy

(Chorus)

And I've been wanting to break out
You helped me figure out
That I could come to life
And turn this thing around
Been wanting to break out
You helped me figure out
That I could come to life
And turn this thing around

Just shut it, if your talking to me
I'm sick and tired of your lies and what you want me to

be
Just shut it, if your talking to me
I'm sick and tired of your lies and what you want me to
be
(Chorus)
