Triple six, triple six, triple six smoked out
(Laid back)
Now I'm high really high mane I'm about to shout

(Lord infamous)
The end is creating illusions
The substance infesting
My brain cell is causing confusion

I picture Teflon in slow motion
It's piercin' threw flesh
And continue to cruisin'
Wait think straight

Don't hate haste penetrate
Face ace safe place base damn I think I'm crazed
Terrors the error no errors
Within my terrors

Are you scared of the six
Double s'six demoniacally elegant elements
A manic depressive aggressiveness stress me bitch
And you will feel the strength of my weapons kick

Tric-kory hic-kory
Dickory dock I smoke top notch bud crop drop
The D the O the P the E, I need the B the I the U N T
Because that green power flower got much L U V

I tell you don't fuck with the triple six mane
'Cuz you know that we on dem drugs
Damn I'm going off with the blunt
Outter space rock lord infamous
I keep clouds of smoke flyin' out my mouth

Triple six, triple six, triple six smoked out
(Laid back)
Now I'm high really high mane I'm about to shout

Triple six, triple six, triple six smoked out
(Laid back)
Now I'm high really high mane I'm about to shout

Triple six, triple six, triple six smoked out
(Laid back)
Now I'm high really high mane I'm about to shout

Triple six, triple six, triple six smoked out
(Laid back)
Now I'm high really high mane I'm about to shout

Soon I'll have the rest
