Three 6 Mafia, Good Charlotte
(Whoa, [Incomprehensible] get to you)
Hypnotize Minds, dat executive
Some real shit, man, let's drop it
Let's go

You know I can't live my life workin' no 9 to 5
No matter what they say, I'm doin' it my own
way
Cause time ain't on my side and they don't
understand
Forget what people say, I'm doin' it my own
way

So many shysters in my ears fool, tryin' to pop
it
On my new fame, they will put new hands in my pocket
Standin' in the rain buck in hand, man, about to
cock it
I take another one, they wanna be up out the rocket

I can't understand why they even wanna see me broke
Wanna see me choke off my own blood from
cuttin' my throat
I always wanted the money, fame wasn't worth my
while
That's why I wore a mask on the front of Mystic Stylez
(Doin' it my own way)

But one night in March 06, my life changed in
a sec
Whether for better or for worse I can't answer that yet
But I'll go to the pen before I lose my ends
Murder one, one of you hoes tryin' to get me
for my Benjamin's

You know I can't live my life workin' no 9 to 5
No matter what they say, I'm doin' it my own
way
Cause time ain't on my side and they don't
understand
Forget what people say, I'm doin' it my own

way
(Let 'em talk)

In the field, it's real, slip up, get killed
Get robbed, get stuck, get messed off in a deal
These kids are gone on meth and pills
That's why I pack, I carry the steel

I'm posted in the hood, got green, I'm good
Trap house, no doubt, is where I stood
Got guap, got hot, 'til shop got popped
These snitches, time cuts, it won't ever stop

The times ain't gon' change, change, long as cocaine,
'caine
Goes up the nose, nose fries a nigga brain, brain
See 'em in the mornin' time tryin' to
catch a train, train
Back out on the block, block, doin' the same
thang, thang

You know I can't live my life workin' no 9 to 5
No matter what they say, I'm doin' it my own
way
'Cause time ain't on my side and they don't
understand
Forget what people say, I'm doin' it my own
way

Whoa, doin' it my own way
