"Beautiful"

There's no words I can say and no way it'd explain why
you're beautiful
And when I close my eyes, see your face in my mind
You're so beautiful

It's from the inside
It's from the inside
And it's from the inside
And ooh-eee

Way you smile
Way you laugh
And the kind words you say to me
Your sweet touch
You never hide
Always saving your love for me

Your voice long to hear
And your friendship I hold dear
You're so beautiful
And when I dream at night, you'll always be by my side
You're so beautiful

~

Your voice long to hear
And your friendship I hold dear
'Cuz you're beautiful
And when I dream at night, you'll always be by my side
You're so beautiful
