I believe in the words you say,
I believe in the things you do,
I believe if the love is strong,
I believe your love's so true.
No more lonely tears,
You made them fade away,
You helped to thaw my fears,
Just by the words you say, some things you do.
I believe whoa, yeah.
I believe whoa, yeah.
Of the lust, that I thought was strong, came and went,
Now they're gone.
If love is strong, my love's so true.
I believe, believe in you.
No more lonely tears,
You made them fade away,
You helped to thaw my fears
Just by the words you say, and some things you do.
I believe whoa, yeah.
I believe, whoa, yeah.
I believe in the words you say,
I believe in the things you do,
I believe your love's so strong,
Just by the words you say, and some things you do.
I believe, I believe.
I believe, whoa yeah.
I believe in the words you say,
I believe in the things you do,
I believe your love's so true.
Just by the words you say, and some things you do.
I believe in the words you say,
You love me too.
I believe,
I believe.
