It's a mystery  
How can it be so amazing?  
I just wanna say

I wasn't even looking for you  
I wasn't hoping for the moon  
I guess it only goes to show you  
Everything can change

In any given moment  
The world can spin around  
The lonely heart can feel love  
And lift it off the ground

And everything you dreamed of  
Just suddenly appears  
The future can unfold an instant miracle  
In any given moment

Why does time move slowly  
When you're lonely?  
Then races wildly  
Once you find someone

I have found no rules apply  
I'm waking up the dead of night  
To say that I've been brought back to life  
I am living proof

In any given moment  
The world can spin around  
The lonely heart can feel love  
And lift it off the ground

And everything you dreamed of  
Just suddenly appears  
The future can unfold an instant miracle  
In any given moment

I wasn't even looking for you  
I wasn't hoping for the moon  
I guess it only goes to show you

Never underestimate  
The power of the hands of fate  
To show you what is true  
From right out of the blue

In any given moment  
The world can spin around  
The lonely heart can feel love  
And lift it off the ground

And everything you dreamed of  
Suddenly appears  
The future can unfold an instant miracle  
In any given moment

Yeah, the future can unfold an instant miracle  
In any given moment
