Way to the darkness in that we go  
Death touches us with icy hand  
We'll suffer implacable pain  
We'll feel a torment, we'll see the death

Dead souls surround us  
We die, return to life and continue to live  
Sins, that nobody from us unscaped them yet  
There aren't ways out-way of fate is one

Way to the darkness  
Way to the dark  
To the dark

Silver star will pass over the sky  
And her light will show the way to the death  
Everything we'll have dear to us  
We'll leave and we'll decay in the black ground

Way to the darkness  
Way to the dark  
To the dark

Our spirits will live eternally  
Not looking to it that our bodies already are dying  
The other world is waiting there yet  
There, where darkness is ruling over everything

Way to the darkness  
Way to the dark  
To the dark
