Just run like hell  
And promise me the memories  
Are all that's left of this dead end town  
We'll erase our steps and we'll burn it down  
Time stood still  
Let's cut these breaks we got to make  
Pavement our home and these hearts our own  
On empty streets we'll never be alone

This is all we got, we'll give it our best shot

We'll give them something to talk about  
We're gonna show them, we're gonna show them  
We'll give them something to talk about  
We're gonna show them what we're made of

I dreamt a fever  
Of makeshift dreamers, insomniac believers  
These thoughts of you, they will never leave  
You ignite these dreams at every seam  
Time stands still  
Another day, will be worth the wait  
For blinding lights and silhouette shaped crowd  
We'll sing together and make them hear us out

Cut us open if you want to see  
What we're made of, these dreams are woken

This is all we got, we'll give it our best shot

We'll give them something to talk about  
We're gonna show them, we're gonna show them  
We'll give them something to talk about  
We're gonna show them what we're made of
