

Three Days Grace

"In The Sand"

Visit "[In The Sand](#)" on MotoLyrics.com

To be down like when you chew me up
Drain me out like I'm not your bastard cup
You step your way and then I step mine
Nothing is gonna change this time
Can't you see all that I've done wrong

Screaming back at an empty space
Well take me out like a thought without a trace

(Chorus)

How long will it take before you realize
It's not that hard to walk the sand
How long will it take before you realize
I finally found the part in the sand

Troublesome can make you very bad
Take for...the things that you never had
You say you need them
When they finally caught you
Oh you never tried
Can't you see all that I've done wrong
why can't you stay along
Screaming back at an empty space
Well take me out like a thought without a trace

(Chorus)2x
