(J. Finley)

I will serenade you, all along the way  
I will serenade you, anyway you say  
Take you to the country, I'll take you to the shore  
Show you to my garden, I know you'll make it grow.

If you let me serenade you  
You know that's what you come for,  
So that I will serenade you

And when the walls begin to fall  
Can't hold back the joy  
That love will conquer all.

Every moment, every day,  
If you want to hold me, I will stay  
Let me serenade you, I will serenade you  
If you want to hold me, I will stay
