From anger to pleasure  
From right to wrong  
And all of these feelings  
Still becomes a song  
The sources of dooms  
Entirely collide  
We tell ourselves that  
We can't run and hide

(Chorus)

We never know we're enabled  
Please tell me something I don't know  
About this sort of gentle healing  
This wave of popular feeling  
You never felt so good (x3)

From anger to pleasure  
From right to wrong  
And all of these feelings  
Still becomes a song  
The sources of dooms  
Entirely collide  
We tell ourselves that  
We can't run and hide

So take me down to water  
If I get too rough  
That's when we sit down  
And say we've had enough  
There's something different here  
That we never knew  
This song, we're imageless  
Just like you

(Chorus)

You never felt so good (x4)  
You never felt good...
