White trash feel wave of discontent  
Lost your place in this society  
Your lack of perfection  
And direction its time you left it all behind

White trashed Old blood  
Stained flag Burn all  
In flames Let go  
Till nothings left

Politicised identity  
Institutionalised racism  
Evangelic laws apply  
To all whom cry  
You wrote your history in their blood

Divert the blame on someone else  
Refuse to hear any complains  
Cause our freedom allows  
Your escape so you can turn round your back and slay

All those whom you  
See as nothing more  
You should be the  
Only worthless slave

Politicised identity  
Institutionalised racism  
Evangelic laws apply  
To all whom cry  
You wrote your history in their blood

Crystal tears storm down your face  
Sick murder  
Born from their ashes
