What if I could see what's. in your head  
Would it make it easier  
What if I could see what's on your mind  
Would it tend to save me time

How can you ask me to empathize and try to  
sympathize  
How can you tell me that all I am is all I'll ever be

Wonder why I don't know what you want  
Can you tell e how it feels  
Maybe we could lose this bitterness  
Would it make us both the same

How can you ask me to empathize and try to  
sympathize  
How can you tell me that all I am is all I'll ever be

How can you ask me to empathize and try to  
sympathize  
How can you tell me that all I am is all I'll ever be

How can you ask me to empathize and try to  
sympathize  
How can you tell me that all I am is all I'll ever be

How can you ask me to empathize and try to  
sympathize  
How can you tell me that all I am is all I'll ever be

How can you ask me to empathize and try to  
sympathize  
How can you tell me that all I am is all I'll ever be

How can you ask me to empathize and try to  
sympathize  
How can you tell me that all I am is all I'll ever be
