

Threnody "Come For Me"

Visit "[Come For Me](#)" on MotoLyrics.com

Despair and anguish torment my mind
Where is the one who was?
Part of my mind, part of my soul
The one I need to make me whole

Losing myself in endless grief
Emptiness ripping my soul
The shreds of sanity
Barely holding on

Wanting to be with you

Pleading for death, to come for me

Trapped in a body
Of needing, weak flesh
I'm merely human, thus powerless
For death brings life
But life brings death

Wanting to be with you
Pleading for death, to come for me
