Try to steer me with your jealousy
My move is to reject influence
Try to lure me with your vanity
You want to try use my honesty
Try to steer me with your jealousy
You want, I won't, I want, you do not
I want, you won't, you want, I do not
Try to create freedom for myself
Dare to speak, dare to fall
Try to steer me with your jealousy

My move is to reject influence
Try to lure me with your vanity
You want to try use my honesty
Try to steer me with your jealousy
You want, I won't, I want, you do not
I want, you won't, you want, I do not
Try to create freedom for myself
Dare to speak, dare to fall
