## "To Let Die"

A new enemy to fight  
New breed of barbarians  
To know not  
Yet to dispose  
A threat to life as it is known  
Civilization will be no more  
Hatred will prosper from tribal war  
Never to help, simply ignore  
Can we all not comprehend  
That when we draw the line  
We will then have betrayed

Our brotherhood of man  
Dare not see which is in all of us  
We must see which is in all of us  
To let die is living a lie  
To let die is living a lie  
Can we all not comprehend  
That when we draw the line  
We will then have betrayed  
Our brotherhood of man  
To let die is living a lie
