and always this story
and always with me
is faithfully wanted like being asleep
by trying to lose them
I'm closing a door
to something I've wanted
cause now I'm not sure

it's getting so old make it up to me again
cause I'm not old I just want to live again

and always this story
and always with me
is faithfully wanted like being asleep

it's getting so old make it up to me again
cause I'm not old I just want to live again live again
