"Stand In The Road"

still in a jam, look at you
moving on involves stimulation
and forcing you to leave hurts me too, telling you to
move

stand in the road, I cant make you move
it makes it hard, hard to fill your shoes

if traffic were low, would you stay
staring at the highway
go and see the world, because you
because you've moved

stand in the road, I can't make you move
it makes it hard, hard to fill your shoes
cant find the ocean drowning in your pool
stand in the road, I can't make you move
