"To Kill And Be King"

We live, we grow stronger and then we fight
Kill, for a new life, kill and be king
Kill, a second chance, kill and be king
The dream, so far away, all that is left is hate
Kill, they can feel the rope, kill and be king
Kill, there is no other way, kill and be king
This is what we are trained for
This is our new life
We have escaped the scaffold
We now serve the skull
And we will fight, where others fall
In every war, Thronar prevails
Our enemies, face to the ground
Their heads will roll, their blood will flow
We live, we grow stronger and then we fight
Kill, for a new life, kill and be king
Kill, there is no other way, kill and be king
This is what we are trained for
This is our new life
We have escaped the scaffold
We now serve the skull
Even the legions of the dark lord fear when they face
us in battle
And we will fight, where others fall
In every war, Thronar prevails
Our enemies, face to the ground
Their heads will roll, their blood will flow
This is what we are, this is what we do
And this is what we are made for
This is what we have become
