let them think that they are better,
they will pass as time has shown,
we're gonna stick around,
long enough to keep them down,
but I can't do this on my own.

only happy when you play the game,
but good at losing all the time,
I'm gonna win this case,
cause I'm a bigger frame,
but I can't do this on my own

((chorus))
this new army will never fall,
this is nothing more than a wake-up call

they promise you a view, just reach the top
slipping down each time you climb,
looking for a face,
something you can replace,
leaving everything behind.

((chorus))
this new army will never fall,
this is nothing more than a wake-up call

so let me hear you if you're with me,
cause I can't do this on my own,
let me hear you if you're with me,
cause I can't do this on my own,

this new army will never fall,
this is nothing more than a wake-up call
