we only took a few we're with it
you want it took from you you're with it
(come on go on)

one more smoke then we're through we're with it
you're good but I'll beat you cause I'm with it
(come on go on)

we only took a few we're with it
you want it took from you go with it
(come on go on)

one more smoke then we're through we're with it
you're good but I'll beat you cause I'm with it

you're with it
(I'm with it)
