Crazy moon, you shine just like there's nothing wrong  
Crazy moon, don't you know my baby's gone?  
I told her she could leave or change her tune  
Crazy me  
Crazy moon

Crazy moon, don't you know that she's not here?  
Crazy moon, can't you see that I still care?  
And I'm going to need to hold her pretty soon  
Crazy me  
Crazy moon

Crazy moon, your silver light can't find the ground  
'Cos you're in the sky before the sun goes down  
And we waste another lonely afternoon  
Crazy me  
Crazy moon
