Well, I gotta keep my reputation, I gotta keep my pride
Can't let you know you've hurt me, I can't let you know
I've cried

I gotta make you think I'm happy everywhere I go
I gotta keep my hurt inside me, I can't let it show

I gotta drink up and be somebody, I have another
round

I can't let my troubles find me, I gotta keep your
memory down

Can't let you drive me crazy, can't let you win
I gotta drink up and be somebody again

Well, I can't spend my whole life grieving, I gotta find
myself

I gotta put me back together, I gotta find me someone
else

I don't make you think I'm happy everywhere I go
I gotta keep my hurt inside me, I can't let it show
I gotta drink up and be somebody
