The girl who made me laugh made me cry today
After all the good times we had she just walked away
But the sweet memories I have will live till I die
Of the girl who made me laugh and made me cry

All the good times we had you left behind
And what you bad times we had never cross my mind
But the sweet memories I have will live till I die
Of the girl who made me laugh and made me cry

All the good times we had you left behind
And what you bad times we had never cross my mind
But the sweet memories I have will live till I die
Of the girl who made me laugh and made me cry
