If you see my baby while making your rounds  
In some crowded nightspot or cafe in town  
Tell her I miss her and I'm still around  
If you see my baby in this lonesome old town

Tell her to call me when she's all alone  
'Cause I'm always waitin' by my telephone  
I'd still worship the ground where she walks around  
If you see my baby in this lonesome old town

And tell her to call me when she's all alone  
'Cause I'm always waitin' by my telephone  
I'd still worship the ground where she walks around  
If you see my baby in this lonesome old town
