(Merle Haggard - Ronnie Reno)

I don't care if I never find that pot of gold
Cause I've got a darling to hold
And she don't care if I never make it big in life
Cause I've got a darling for a wife.

She's everything a man could want a girl to be
And I just can't believe that she belongs to me
And I'll live every day to hold her close at night
I've got a darling for a wife.

--- Instrumental ---

She's everything a man could want a girl to be
And I just can't believe that she belongs to me
And I'll live every day to hold her close at night
I've got a darling for a wife...
